

Research Study (#06212) Healthy Adults

CRL#: 06212

Population needed: Healthy Adults

Description: In this study we are collecting blood from healthy people to see if they have a specific blood protein. If you qualify and participate, your samples will be used to help develop a meningitis vaccine.

Requirements:

- 18-40 years old
- Not taking antibiotics or an investigational drug
- Weigh at least 110 lbs
- Have not received the Meningitis vaccine

Stipend: \$25 for a blood draw at screening and up to \$500 per blood draw if you qualify and participate in the trial.

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.

For more information, please call the Recruiters at Charles River Clinical Services Northwest at 1-877-NWSTUDY or 253-779-8815, or email to RecruitersNW@crl.com.

Research Study (#08015) Healthy Males

CRL#: 08015 M

Population needed: Healthy Males

Description: In this study we are testing an investigational drug being developed to treat hot flashes in menopausal females and enlarged prostate in males. We will be assessing the safety and tolerability of this drug when taken at various dose levels.

Requirements:

- 18-65 years old
- Not taking medication
- Non-smoker
- Available for a 15-night stay and 2 outpatient visits at our facility in Tacoma, WA

Stipend: up to \$3,440 for time and travel expenses

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.

Research Study (#08064 B) Healthy Adults

CRL#: 08064 B

Population needed: Healthy Overweight Adults

Description: In this study we are testing an investigational drug developed to treat high levels of fat in the blood. We will be assessing, among other factors, safety, side effects and how the drug is broken down in the body.

Requirements:

- 18-55 years old
- Have elevated triglycerides
- Not taking medication
- Height/weight proportionate with a Body Mass Index (BMI) of 30-45 kg/m²
- Available for one 4-night stay and 1 outpatient visit at our facility in Tacoma, WA followed by 1 follow-up phone call

Stipend: up to \$1,000 for time and travel expenses

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.

For more information, please call the Recruiters at Charles River Clinical Services Northwest at 1-877-NWSTUDY or 253-779-8815, or email to RecruitersNW@crl.com.

Research Study (#08121) Healthy Adults

CRL#: 08121

Population needed: Healthy Adults

Description: In this study we are testing an investigational drug being developed to treat depression. We will be assessing, among other factors, safety, as well as the effect of the drug on the rhythm of the heart.

Requirements:

- 18-45 years old
- Not taking medication
- Non-smoker
- Height/weight proportionate with a Body Mass Index (BMI) of 18-32 kg/m²
- Available for six 3-night stays and six 2-night stays at our facility in Tacoma, WA

Stipend: up to \$5,525 for time and travel expenses

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.

Research Study (#08131) Healthy Males and Females of Non-childbearing potential

CRL#: 08131

Population needed: Healthy Males and Females of non-childbearing potential

Description: In this study we are testing an investigational drug being developed to treat autoimmune diseases such as rheumatoid arthritis. We will be assessing, among other factors, safety as well as how the body breaks down, absorbs and eliminates the drug.

Requirements:

- 18-50 years old
- Not taking medication
- Height/weight proportionate with a Body Mass Index (BMI) of 18-32 kg/m²
- Available for one 8-night stay and 11 outpatient visits at our facility in Tacoma, WA

Stipend: up to \$2,580 for time and travel expenses

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.

Research Study (#08200) Healthy Adults

CRL#: 08200

Population needed: Healthy Adults

Description: In this study we are testing an investigational drug being developed as an antibiotic for acute bacterial infections. We will be assessing how the body breaks down and absorbs the drug when taken in single and multiple doses.

Requirements:

- 18-45 years old
- Not taking medication
- Height weight proportionate with a Body Mass Index of 18-30kg/m² and weight between 110-209lbs
- Available for one 2-night stay, one 1-night stay and 5 outpatient visits at our facility in Tacoma, WA

Stipend: up to \$1,000 for time and travel expenses

Please note:

- All personal health information submitted by online registration will be added to our database with your approval. All information remains confidential within our database at Charles River Clinical Services, Northwest and is not shared with outside parties.
- If you agree to be contacted for this or future trials, your contact information will be used to reach you by phone or email.
